

Frezya 600S Series

High Storage Capacity Water Dispenser with R.O. System

New A.O. Smith 600S free-standing water dispenser is a new generation model with a tank capacity of 21 liters, hot-cold and room temperature water options, an alkaline filter that increases the pH of the water, and Reverse Osmosis technology that removes harmful substances, bacteria and viruses from your water

Advantages of Frezya 600S

- High Capacity
 - Cold Water Tank Capacity 6.3 L
 - Hot Water Tank Capacity 4.2 L
 - Room Temperature Tank Capacity 10.5 L
- **Hygienic and Healthy:**
 - Reverse Osmosis Filtration with Alkaline Post Filter
 - AISI 304 Stainless Steel Hot and Cold Storage Tanks
 - Removable Water Faucets
- **Energy and Cost Saving:**
 - Eco Mode with a Photo Detector
 - Automatic Water Level Control
 - Power Saving Features
- **Safe to use:**
 - Hot Water Safety Button
 - Anti-Superheating Function
 - Automatic Temperature Control
 - Pressure Reducer within unit
- **Easy to Use:**
 - Instant Hot, Cold & Room Temperature Water Use
 - Effortless Healthy and Clean water
 - Continuous Water Dispensing
 - Big Capacity Drip Tray and High Dispensing Area

Product Features

- **Reverse Osmosis Filtration System:** >0.5 μm Sediment Filter (filter larger particles and solid impurities), Pre-Carbon Filter (absorbs chlorine, mould), >0.001 μm RO Membrane (removes bacteria, viruses, heavy metals, pesticide residue), Alkaline Post Filter (regulates the taste of water, keeps the water fresh and adds minerals to water).
- **Alkaline Post Filter:** Puts beneficial minerals such as calcium, magnesium, sodium, and potassium back in your water, increasing the pH value over 8.0, making it alkaline.
- **Eco Mode:** Automatically stops water heating and save electric charge, when it notices that illuminance around the unit darkens at night.
- **Continuous Water Dispensing Function:** By this function, you can conveniently receive a large amount of water at once.
- **Removable Water Faucets:** A hygiene guard to help keep hot & cold-water faucets always clean.
- **Hot Water Safety Button:** An extra safety button can protect your children from unexpected accidents with hot water.
- **Safety Functions for Hot Water Use:** Anti-Superheating function of heater (by manual reset type of bi-metal) & automatic temperature control function (by automatic reset type of bi-metal) keep you safe from hot water.
- **Water Level Control Function:** Automatic water level control function ensures durability of the filters & unit.
- **Fresh Water Supply:** 4~12°C of cold water, 70~90°C of hot water and room temperature water are available at any time.
- **Power Saving Function:** When using only one sort of water temperature between hot & cold, you can turn the other temperature switch off and save electricity.

Technical Specifications	
Model Name	Frezya 600S Free Standing
Power Supply	220V~ 50Hz
Current	4.5 A (Cold 0.9A)
Feed Water Pressure	1.47~4.9 bars
Permitted Water Temp.	5~35°C
Capacity	App.280 L/day
Cold Water Tank	AISI 304 SS– 6.3 L
Hot Water Tank	AISI 304 SS– 4.2 L
Room Temp. Water Tank	AISI 304 SS – 10.5 L
Cold Water Temp.	4°C~12°C
Hot Water Temp.	70°C~90°C
Heater Power Consumption	850W
Total Power Consumption	Cold: 160W / Hot: 850W
Refrigerant	R-600a
Climate Class	T<IPX1>
Usable Feed Water	Municipal Tap water
Recommended Environment	Indoor (House/ Office)
Dimensions (W x D x H)	370 x 480 x 1304.5 mm
Net Weight	40 kg.
